Eight of the lists have Jacob's first 4 sons in sequence with Gen. 29/30 (= 9 of 16), including 3 that omit Levi.

Twelve of the lists have Issachar and Zebulun in that order together with Gen. 29/30 (= 13 of 16).

None of the lists appear to exactly and completely match the original birth sequence in Gen. 29/30.

The birth sequence of Gen. 29/30 has been proven workable, allowing 10 months between impregnations, to keep all within the 2nd seven years..

Another list of a sort is in Joshua 10, and the Land Division list in 18 to 22.

Another tribal list is in 1 Chr. 12
